- Content includes graphics and images
- Accessible online: anytime, anywhere
- Optional EHR integration
- Personalized experience
- Ability to earn CME and MOC

Combining evidence-based drug and disease information into a single solution that supports clinicians at the point of care

DynaMedex™ seamlessly combines the clinical expertise and extensive, curated disease content of DynaMed® with the depth and breadth of drug information and AI search capabilities of Merative Micromedex® to provide users with evidence-based insights for optimal clinical decision making. This can help lead to enhanced continuity of care for improved patient outcomes.

Why DynaMedex?

Supports confident evidence-based decision-making

DynaMedex provides clinicians with comprehensive disease and medication content, curated using rigorous evidence-based editorial principles. Designed to facilitate clinical decision-making at the point of care, the solution combines clinical evidence and guidance from accredited experts to help give clinicians confidence in their decision-making.

Designed with ease-of-use in mind

With intuitive personalization features, natural language drug search capabilities, streamlined EHR integration and a robust mobile experience — all built on the latest cloud-based technology — DynaMedex makes it easy for clinicians to access the content they need when, where and how they need it.

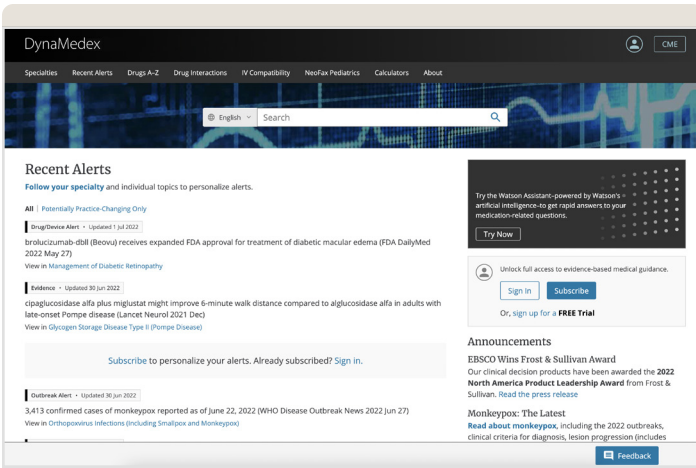

Single, comprehensive solution

The DynaMedex suite of content and tools provides comprehensive coverage for the entire care team with current, high-quality, and actionable evidence-based drug and disease content.

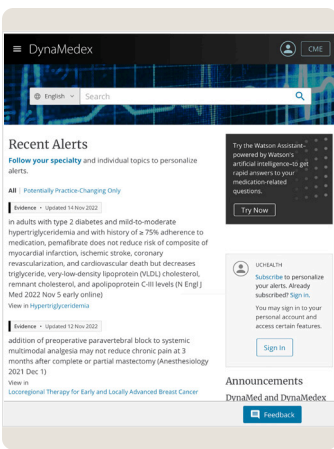

Cost-efficient solution to support a value-based care model

DynaMedex offers a streamlined buying process which may help reduce the total cost of ownership using a single solution suite, available at one price, via one contract and invoice.

About Merative

Merative is a data, analytics and technology partner for the health industry, including providers, payers, life sciences companies and governments. With trusted technology and human expertise, Merative works with clients to drive real progress. Merative helps clients orient information and insights around the people they serve to improve decision-making and performance. Merative, formerly IBM Watson Health, became a new standalone company as part of Francisco Partners in 2022. Learn more at www.merative.com
