

MICROMEDEX ASSISTANT

Fast clinical insights

Put the power of conversational search to work for you. Micromedex® Assistant within DynaMedex - trained by clinicians and refined by you

- Accelerate access to evidence-based drug information
- Ask questions naturally, the way clinicians ask clinicians
- Deliver quick clinical responses, supporting fast patient care
- Online access options allow for direct access from within the EHR, or on-the-go via a mobile browser

Questions you can ask:

- What's the adult dose of lisinopril for hypertension?
- What are the adverse effects of digoxin?
- How fast can Daptomycin be given?
