

DATA SHEET

Access evidence-based formulary drug information

Merative™ Micromedex® Formulary Management

Merative Micromedex Formulary Management provides immediate access to formulary information throughout your entire organization. The solution guides prescribing clinicians towards formulary drugs, promoting drug use policy adherence and encouraging formulary compliance, while simplifying communication and facilitating standardization across your organization.

Manage and distribute your formulary with ease and efficiency

Built on the Micromedex platform, Micromedex Formulary Management enables your care teams to access updated and relevant medication information. Micromedex Formulary Management can accommodate a list of medications, medication use policies and procedures, drug shortage management plans, and organizational guidelines.

Includes RED BOOK® content to populate the Master Formulary List

Within the Formulary administrator tool, RED BOOK's database provides users the ability to find and add new drugs, dosage forms and strengths to existing formularies. Changes can be published in real time.

Functionality overview

- Setup multiple formularies
- Configurable status tiers (up to 16) per formulary
- Setup therapeutic interchange and notes for each formulary item- brand, generic, branded generic – at a strength, route and form level
- Add and maintain custom items to the formulary – drugs in clinical trials, devices etc.
- Single click integration from Micromedex drug landing page to formulary and more
- Prominent display of formulary status tier information and icon in Micromedex for formulary items
- Ability to switch between multiple formularies
- Identify related options through clear display of status tiers
- Linked custom formulary items and generic drug substances
- Easy to use formulary administrator tool for efficient maintenance of the solution
- IT resources not required for solution maintenance

Benefits

- Maximize workflow with timely formulary updates and distribution
- Communicate restrictions and therapeutic interchanges
- Increase formulary compliance
- Reduce non-formulary medication orders
- Fulfill the Joint Commission's requirement for the maintenance and availability of a formulary
- Promote adherence to drug use policy across your organization
- Formulary implementation support
